

## CSV & EDI Messages

1-Stop offers an alternative choice for users to submit the train consist message other than using the Web screens. They can choose to transmit a XML or EDI message to the 1-Stop system. 1-Stop will then translate these files accordingly and pass it to the terminals. The XML and EDI file sent to 1-Stop has to conform to 1-Stop's message standard. For further enquiries, please contact the helpdesk (1300 881 055).
